

**Melissa Hollomon Claim** – Melissa Hollomon was involved in a slip and fall incident during a Buccaneers football game. She severely injured her knee and based on her surgery and medical reports has a permanent injury. The possible future claims are estimated to exceed the settlement reached. Based on our contract with Knight, our past cleaning company, the TSA was able to subrogate the majority of the liability to Knight agreeing to pay 10% of the \$125,000 settlement. The insurance company (Philadelphia) settled this case without the TSA's knowledge. We have addressed the issue of settling these cases without our knowledge in the future. Staff is recommending the board approve the settlement offer for \$12,500.

**Ronald DeBiase Claim** – Mr. DiBiase was involved in an altercation with another individual who was intoxicated and arrested after the incident. Mr. DiBiase had injuries associated with the altercation. Based on our agreement with our security provider, Sentury, the TSA subrogated a large portion of the liability to Sentury. The total settlement offer is for \$30,000. \$12,500 for the TSA and \$17,500 for Sentury. Based on the potential liability and the on going legal defense fees, the TSA and Sentury agreed to settle the claim. Staff is recommending the Board approve the settlement offer of \$12,500.
