QUESTION & CLARIFICATION

Upon reviewing the ITB, it was noted that the Tampa Sports Authority requires the contracting firm perform all the work without subcontracting, unless there is prior consent. I would appreciate it if you could confirm whether this requirement is applicable to the specific project we are bidding for. We are general contractors and we have done many projects like this one for private clients, but we always subcontract the work, we don't have flooring installers on payroll. Based on this, we would like to know if we are allowed to bid for this project, or if subcontracting the work would invalidate our proposal. *The Authority is willing to accept proposals in which the work will be performed by a subcontractor. The GC must submit the subcontractors' name, address, contact information, and licenses (if applicable). The GC is fully responsible for payment to the sub-contractor for all labor, equipment, materials, etc. as required to complete the work. The Authority will not be liable or responsible for payment to any subcontractors hired by the General Contractor for said work.*
